BRAND OVERVIEW

The Meghalaya identity is inspired by the relationship between nature, land, water and life. The visual system translates these elements into a contemporary identity rooted in place.

the IDEA

A living landscape, brought together as one identity.

The logo represents Meghalaya through a combination of ***vegetation, earth, water and sunlight.***

Rather than depicting a single landmark, the identity creates an abstract visual ecosystem where each element connects to the next.

KEYWORDS:

NATURAL • ROOTED • ORGANIC • CONNECTED • BALANCED

LOGO RATIONALE

The symbol brings together four essential elements of Meghalaya's landscape:

SWIRLS
Flowing forms represent the landscape

LEAVES
Represent the dense greenery, forests and rich biodiversity of Meghalaya.

SUN
The central circular form represents life, energy, warmth and continuity.

WATER
The flowing waves represent Meghalaya's abundant rainfall, rivers, waterfalls and relationship with water.

ROOTS
The roots represent belonging, heritage and a deep connection to the land.

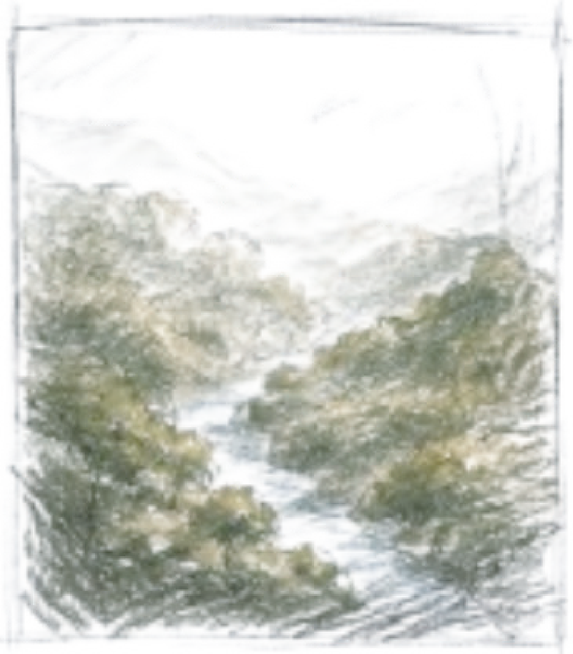
MOTION STORY -BOARD

The motion identity translates the natural movement of Meghalaya into a slow, organic logo reveal.



0.8

SONIC IDENTITY

The sonic identity extends the visual language into sound through subtle natural textures.

The Sound of Meghalaya

The sonic identity translates the logo's connection with nature into sound. It is inspired by the flow of water, movement of wind, rustling leaves and the warmth of the sun, creating an atmosphere that feels calm, organic and rooted.

Sound Palette:
Flowing Water • Leaves & Wind • Earthy Ambient Tones • Soft Chime

The sound begins subtly, builds as the logo elements come together, and resolves with a soft, warm tonal note when the complete logo appears.

Character:
Organic • Calm • Atmospheric • Warm • Natural

0.9

APPLICATION

The identity is designed to remain flexible across physical, digital and environmental touchpoints.
